SEASHELL

... charmed by the birth of a pearl

How many dreams and wishes are hidden in a summer tale of one pearl.

Just as a pearl formed in the heart of a pearl mussel can become a fascinating recollection of a unique moment, an original SEASHELL lamp produced by Crystalion can become a true gem in your interior.

And in the same natural way that Natural pearls are formed so SEASHELL lamps appear. With an emphasis on natural beauty and the permanent imprint of the handicraft of glass-makers.

seashell

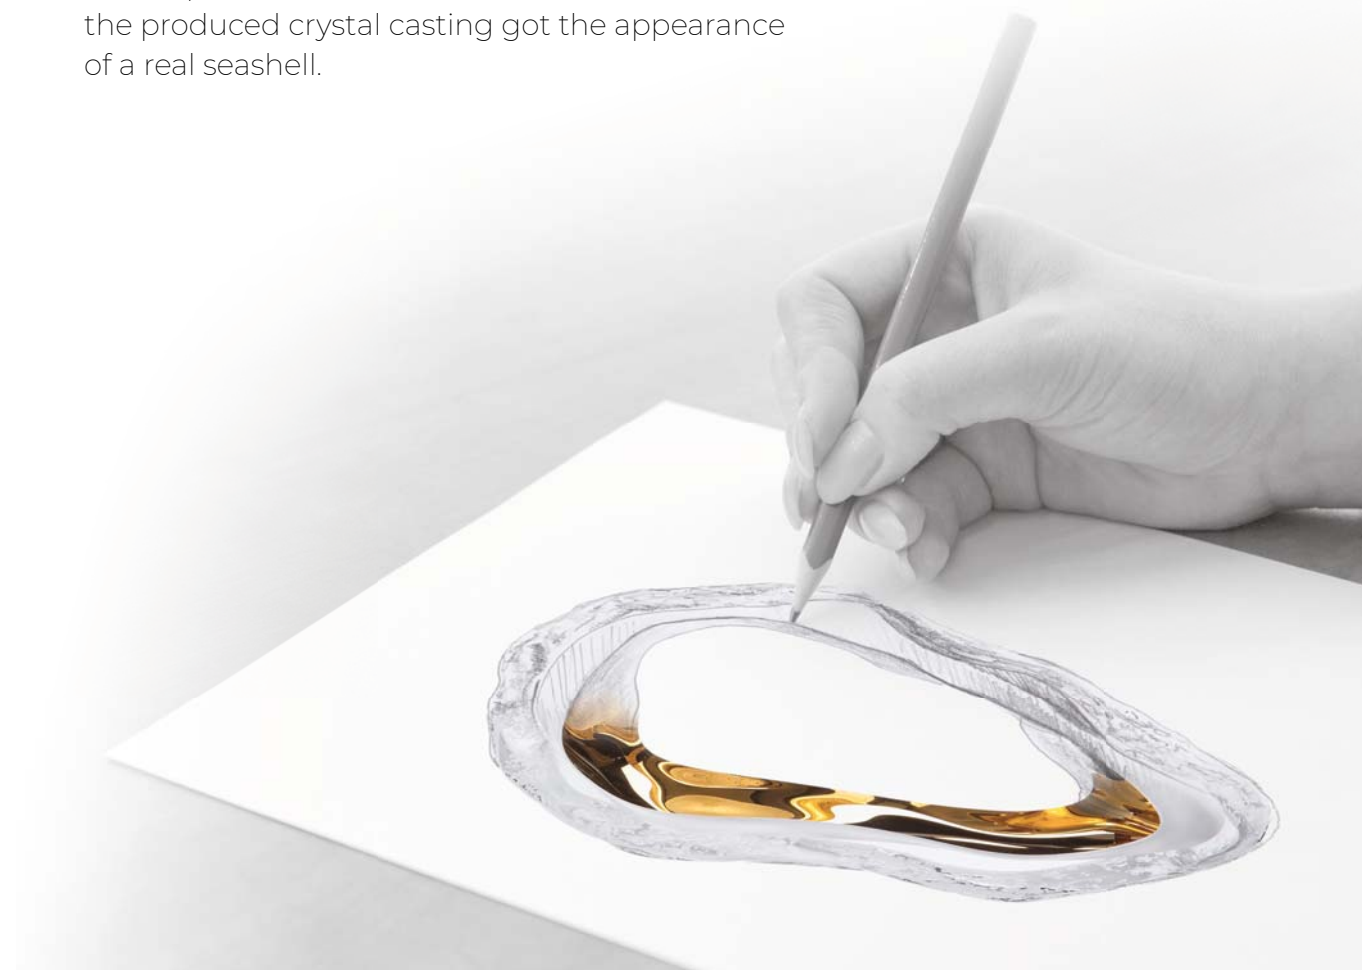

Seashell, symbol of the sacred soul from which, according to Greek myths, the goddess of love and beauty Aphrodite was born.

Its original shape has become our inspiration and challenge at the same time. We wanted to create its perfect organic shape from Czech crystal, which, like the natural shell, will create a magical atmosphere of calmness and relaxation in the room.

Seashell is an original design made of the highest quality Czech crystal, which excels in its non-traditional optical effect.

The development of this perfect replica of the organic shape of the natural shell took more than a year. Thanks to 100% handwork, a unique one is created, which is decorated with hand-applied gold and a special surface treatment. Thanks to this, the produced crystal casting got the appearance of a real seashell.
