... melody from drops

WATER

... *medody from drops*

When the sky darkens with storm clouds in the early summer evening and the smell of rain smells in the air, stop and listen. When the drops drum their staccato melody on the windowsill for the first time, only then can you dance.

The first of the four elements - water and its music - became the inspiration for the birth of the light fixture WATER. A playful melody of rain that caresses the arid land and becomes a song without words.

At the beginning of the journey, the idea was to materialize the water element in all its beauty. Create a unique look of a crystal light fixture that will breathe life into the interior just as water does.

The combination of glass technologies created hand-shaped pendants decorated with special air bubbles, which resemble the amazing power and energy of water in every detail.

The development of the basic component of the light fixture (drops) took more than half a year. The individual drops were made of high-quality Czech crystal, which was prepared according to a traditional glass recipe.

With a suitable combination of 100% handwork and proven drawn glass technology, there was a perfect connection of molten glass, colour and air bubbles. Romantic lighting of the light fixture is provided by special LED technology Osram. Among other things, it enables remote control of the lighting style according to the current mood or needs.

Handblown component

Diameter: 45 mm (1,77 inch)
Height: 280 mm (11,02 inch)
Weight: 280 g

Size variations

WATER 1
Diameter: 600 mm (23,62 inch)
Height: 1100 mm (43,31 inch)
Weight: 18 kg
Number of components: 36 pcs

WATER 2
Diameter: 600 mm (23,62 inch)
Height: 1400 mm (55,11 inch)
Weight: 18 kg
Number of components: 36 pcs

WATER 3

Diameter: 700 mm (27,56 inch)

Height: 600 mm (23, 62 inch)

Weight: 12 kg

Number of components: 26 pcs

WATER 4

Diameter: 700 mm (27,56 inch)

Height: 600 mm (23,62 inch)

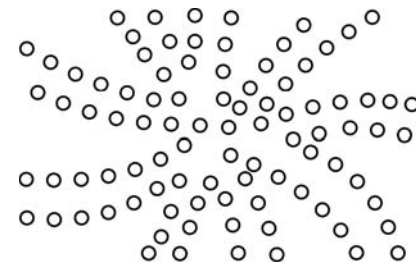

Weight: 13 kg

Number of components: 26 pcs

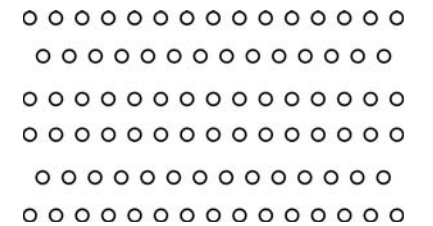

Available sizes

WATER 5
Length: 1440 mm (56,69 inch)
Width: 907 mm (35,82 inch)
Height: 616 mm (24,40 inch)
Weight: 27 kg
Number of components: 92 pcs

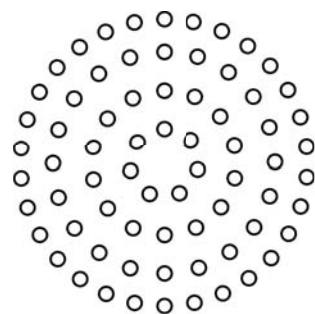

WATER 6
Length: 1442 mm (56,76 inch)
Width: 795 mm (31,30 inch)
Height: 749 mm (29,49 inch)
Weight: 25 kg
Number of components: 88 pcs

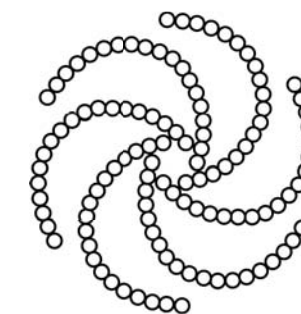

WATER 7

Diameter: 999 mm (39,33 inch)
Height: 1074 mm (42,28 inch)
Weight: 20 kg
Number of components: 71 pcs

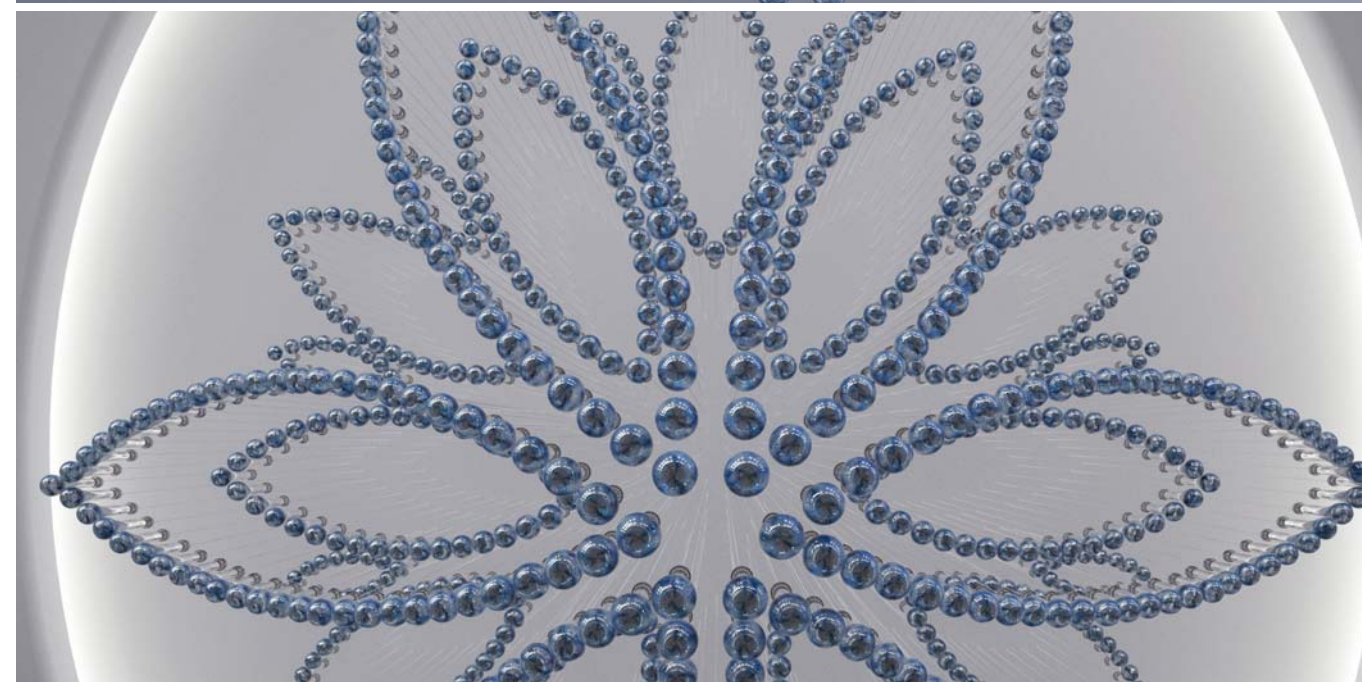

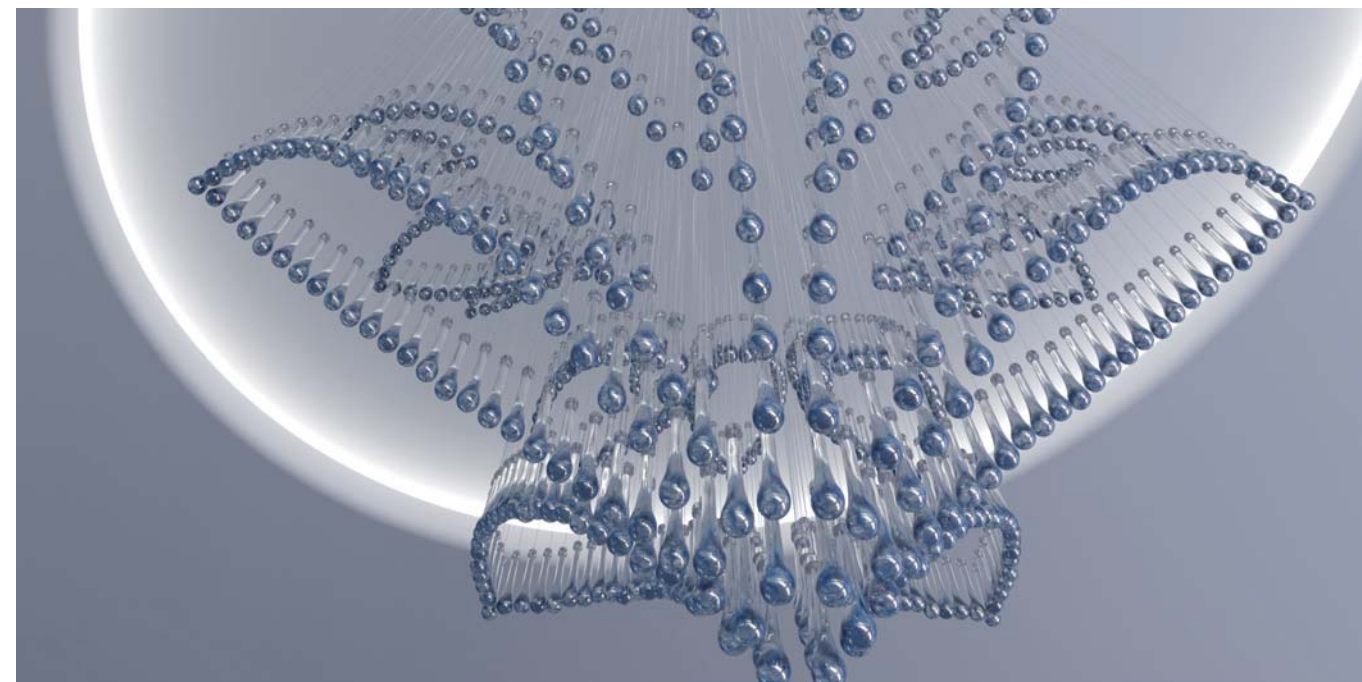

WATER 8

Diameter: 939 mm (37,00 inch)
Height: 1173 mm (46,18 inch)
Weight: 33 kg
Number of components: 114 pcs

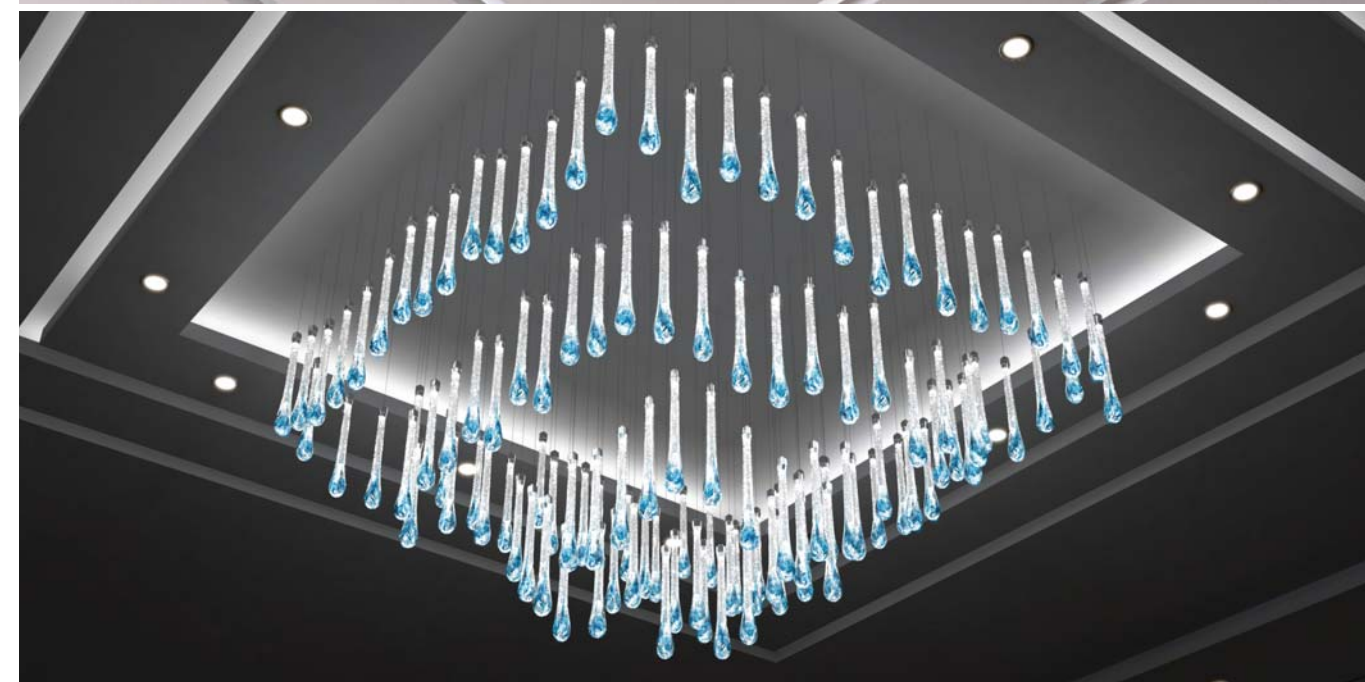

WATER 9 – diameter: 2500 mm (98,43 inch), height: 3800 mm (149,61 inch), weight: 257 kg,
number of components: 900 pcs

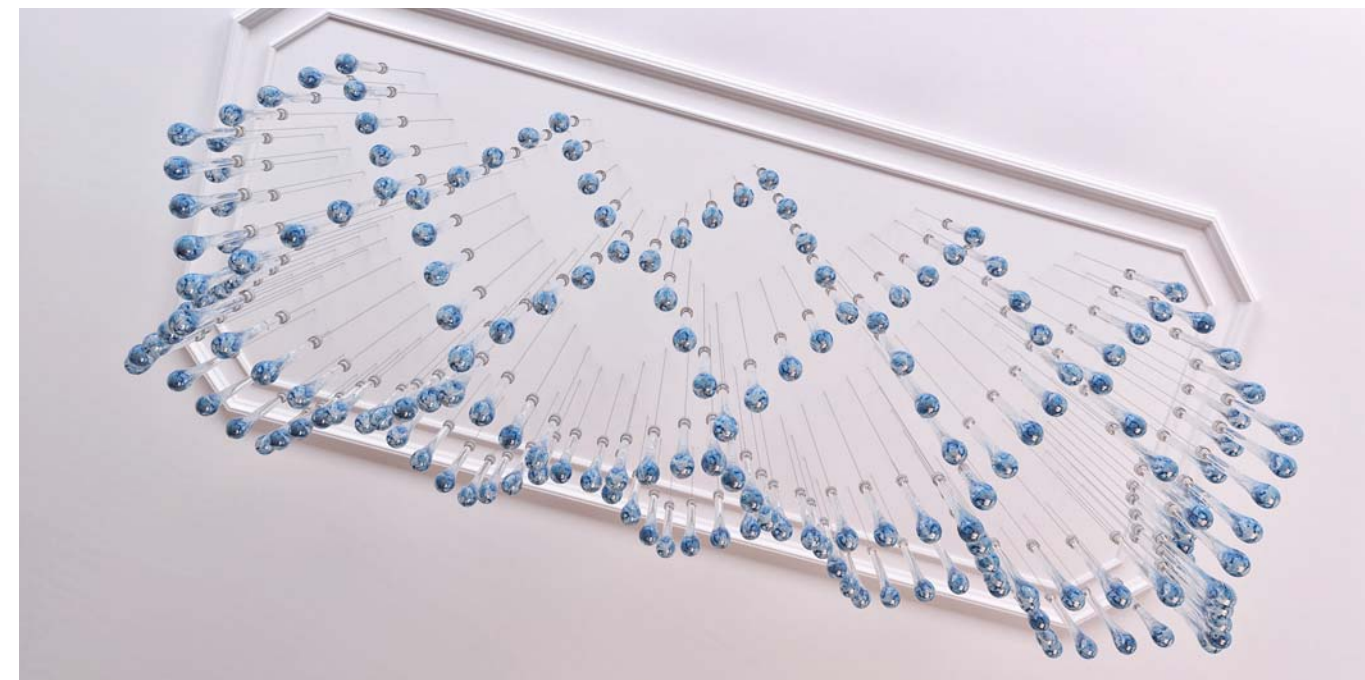

WATER 10 – diameter: 1000 mm (39,37 inch), height: 1185 mm (46,65 inch), weight: 16 kg, number of components: 54 pcs

WATER 11 – width: 2000 mm (78,74 inch), height: 1141 mm (44,92 inch), weight: 35 kg, number of components: 120 pcs

WATER 12 – length: 2154 mm (84,64 inch), width: 832 mm (32,68 inch), height: 837 mm (33,07 inch), weight: 51 kg,
number of components: 178 pcs
