FLAME

.... energy
for your interior

The moment the flames start dancing to the rhythm of unrestrained flamenco, feel the energy and close your eyes. You are exactly where you are supposed to be. You are at home.

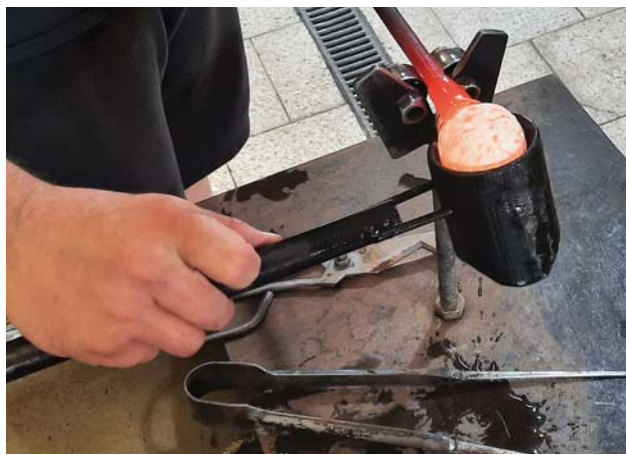

The inspiration for the origin of the Flame light fixture was the element of fire - heat, light and life-giving force.

A charming dance of flames that will bring a fascinating surge of energy to the interior.

Fire – energy without which humanity would not exist. Thanks to fire, our ancestors had light and warmth. Bright flames protected them from danger and helped them survive.

Their energy, shape, different sizes and colors inspired the designers of Elite Bohemia to create an original component, thanks to which the unrepeatability of burning energy of this unmissable element is transferred to the interior.

The shape of the Flame crystal element resembles a fiery flame that is part of a fascinating fire.

To transfer its perfect organic ever-changing shapes into Bohemian crystal of the highest quality was a challenge for designers, technologists and the glassmakers themselves.

The development of its final look, from the moodboard through the individual prototypes, took dozens of hours of testing and research.
